Tuesday February 1st, 2011

Today was a Buy day. As mentioned in last night's report, when we have a failed 3 day rally and the markets were rallying on the SS day to try to get to the Buy Day Low, often they will continue that rally on the next day, the Buy day, and therefore not getting a decline and reversing the bearish momentum of a failed 3 day rally.

Tomorrow will be a Sell day. Since most of the rally is already in place, we will probably get a confused day.

Thursday February 3rd, 2011

Today was a SS day. It ended up being more confusing than anything.

Tomorrow will be a Buy day. Having closed on the highs of the day, momentum may take us higher before the decline starts.

Friday February 4th, 2011

Today was a Buy day. Markets did go higher before the decline started. However the decline was shallow. Monday will be a Sell day. A good part of the rally is accomplished and therefore may create a confusing day.

Tuesday February 8th, 2011

Today was a SS day. As mentioned last night, markets did continued their rallies and reached TTT levels Tomorrow will be a Buy day. We should expect a decline on Buy days, however since we did close on the highs of the day today, momentum may take us higher before the decline starts.

Wednesday February 9th, 2011

Today was a Buy day. This was a pretty textbook Buy day. We tested yesterday's highs, failed, then declined to reach the Day session MA levels.

Tomorrow will be a Sell day. Markets did start their rally from the lows today. Having closed at the current levels, it may make for a confusing day if they can't get above today's highs.

Thursday February 10th, 2011

Today was a Sell day. Markets were confused getting below the Buy day low before the open, making for a nice entry to long.

Tomorrow will be a SS day. There is room on the up side if they want to continue the 3 day rally.

Tuesday February 15th, 2011

Today was a Sell day. As expected it was a confused day with markets not going in any direction

Tomorrow will be a SS day. Some closed below the BDL. Good odds that they will get above these levels before the close tomorrow. FOMC minutes may make for another slow day until 2PM EST

Wednesday February 16th, 2011

Today was a SS day. Markets did get back above the BDL and even gapped above for the day session. TVGR did keep the markets higher

Tomorrow will be a Buy day. Will momentum take markets higher before the decline starts, that is the question?

Tomorrow will be a Sell day. A good part of the rally is already in place, therefore we could end up with a confused day

Thursday February 24th, 2011

Today was a SS day. NQ made it to the BDL with ES close behind by missing it by 1 tick. The others tried but failed.

Tomorrow will be a Buy day. Will the market still try to make the previous BDL and then decline?? That is the question.

Friday February 25th, 2011

Today was a Buy day. As mentioned last night, markets tried to reach the previous BDL. Markets opened with a huge gap up and then TVGR took over giving us a very small decline

Monday will be a Sell day. Markets closed on the highs of the day and most of the rally has been accomplished. This may produce a confused day.

Wednesday March 2nd, 2011

Today was a Buy day. The Decline was already done yesterday and as expected momentum did take the markets lower, however it was done during the night while most of us were sleeping.

Tomorrow will be a Sell day. Part of the rally has been achieved and we do have room to go up. However we may get a confused day.

Tuesday March 8th, 2011

Today was a Sell day. As expected the rally continued and reached higher than expected levels.

Tomorrow will be a SS day. Most markets are at or above the average 3 day rally levels. That could make for a confusing day.

Friday March 11th, 2011

Today was a Sell day. Momentum did take the markets lower and then the rally started.

Monday will be a SS day. We are above the BDLows and the rally should continue if the bulls are still in charge.

Tuesday March 22nd, 2011

Today was a SS day. Markets tested the previous day high and failed to go much higher and the decline started.

Tomorrow will be a Buy day. We do have a decline in place, however based on averages the decline should take us lower.

Wednesday March 23rd, 2011

Today was a Buy day. The decline continued and reached TTT levels before starting the rally. Tomorrow will be a Sell day. Depending of the instrument most of the rally is already accomplished and therefore could create a confusing day.

Friday April 1st, 2011

Today was a Sell day. The bulls maybe in charge but not very strong as the rally was not all that strong. Monday will be a SS day. The question is how strong the bulls are and how big of a 3 day rally will they produce.

Friday April 8th, 2011

Today was a Buy day. ES was a great example of a perfect Buy day with low made last. ES tested the SS day highs and failed. It had therefore no choice but to decline.

Monday will be a Sell day. Will the last minute rally continue or will the day's momentum take us lower before the rally starts.

Monday April 11th, 2011

Today was a Sell day and we did get a very confused one.

Tomorrow will be a SS day. Most instruments are at BDL or under. We need to see you we open tomorrow, if we open lower than BDL we have good odds to get back above unless TVGR sets in. If we open above then it could go either way.

Tuesday April 12^h, 2011

Today was a SS day and a tuff day for the bulls that tried to get back to BDL but ES and TF failed on the day session.

Tomorrow will be a Buy day. There is still room to go lower to complete the decline, after which the rally could start.

Thursday April 14th, 2011

Today was a Sell day. As expected it was a confused day. We did open below the BDL and we knew we had great odds of getting at least back to these levels. We did and continued the rally.

Tomorrow will be a SS day. There is plenty of room on the upside based on averages, and we shall see who is in charge Bulls or Bears.

Wednesday April 20th, 2011

Today was a SS day. Markets rallied hard all night creating a huge gap up this morning and then TVGR took effect. Long side was the only safe side.

Tomorrow will be a Buy day. Momentum may take us higher before the decline starts.

Thursday April 28th, 2011

Today was a Sell day. I was a bit confusing specially the last minute of the trading day.

Tomorrow will be a SS day. Based on the averages markets should go higher however the weird action of the last minute of trading may make tomorrow confusing.

Monday May 2nd, 2011

Today was a Buy day. It was interesting how some news can move the markets and then retrace all of that move and more just because it was a Buy day and we needed a decline.

Tomorrow will be a Sell day. Markets closed near the lows of the day, therefore momentum may take the markets lower before that rally can start.

Tuesday May 3rd, 2011

Today was a Sell day. The rally was very small and the markets reversed.

Tomorrow will be a SS day. ES NQ and TF are below the Buy Day Low. ES NQ are very close however TF is quite far. We still have very good odds of at least getting back to the BDL.

Wednesday May 4th, 2011

Today was a SS day. NQ and YM did get a positive 3 day rally and ES also did but only on the 24hr session. TF completely failed.

Tomorrow will be a Buy day. There is still room for the markets to decline tomorrow. However let's remember that when we get a failed 3 day rally, sometimes the missing part of the rally to get back to the Buy day low occurs on the following day.

Today was a Buy day. We did get a nice decline before the rally started.

Tomorrow will be a Sell day. The rally should continue but may get confusing.

Tuesday May 10th, 2011

Today was a Buy day and the markets showed once again the bulls don't quit without a fight. The decline was small and even TF ailed to get a decline for the day session. TVGR was also in effect all day.

Tomorrow will be a Sell day. A big part of the rally is done and therefore may give us a confused day.

Wednesday May 11th, 2011

Today was a Sell day and as expected it was a confused day. Goals were reach overnight and a reversal started.

Tomorrow will be a SS day. If the bulls are in charge, markets should at least rally to the Buy Day Low levels.

Friday May 13th, 2011

Today was a Buy day and a perfect one at that. Markets went higher overnight. Opened down this morning and tested the previous day High and failed to continue up, the decline then started and reached the TTT levels.

Monday will be a Sell day. Momentum may take markets lower before the rally can start.

 Tomorrow will be a SS day. Markets closed below the Buy day low and TTT tells us we have very good odds

Wednesday May 18th, 2011

Today was a Buy day. As expected they tried to finish what they had missed yesterday therefore producing a small decline.

Tomorrow will be a Sell day. Markets already did a good part of the rally. We could therefore expect a confusing day tomorrow.

Today was a Sell day. Markets had a hard time to rally and basically closed around the Buy Day Low. Tomorrow will be a SS day. The ones below the BDL should rally above and maybe drag the others with them.

Wednesday May 25th, 2011

Today was a SS day. Markets opened below the BDL and we had high odds of at least getting back to the BDL which we did and continued rallying.

Tomorrow will be a Buy day. We should be expecting a decline.

Wednesday June 1st, 2011

Today was a Sell day. Markets tested yesterday's highs during the overnight session and failed to go higher. By the time the markets opened this morning they had dropped a fair bit and created a gap down. TVGR did set in and markets dropped all day. Sometime after a holiday the cycles seem messed up and usually they do correct themselves shortly.

Tomorrow will be a SS day. Based on averages we have good odds that markets should try to at least get back to the Buy Day Low. Having said that, today's drop was severe and may make the big climb hard to achieve.

Thursday June 2nd, 2011

Today was a SS Day. As expected the climb was to severe and markets basically just digested yesterday's drop.

Tomorrow will be a Buy day. Based on averages we have room for a further decline. However like I mentioned yesterday markets may be messed up due to holiday and we could be getting the failed 3 day rally recovery 1 day late. Funny how they manage to make things complicate on the day of the month where the biggest news come out.

Monday June 6th, 2011

Today was a Sell day. The rally was not very strong and all markets closed below the Buy Day Low
 Tomorrow will be a SS day. Odds say we should at least get back to the BDL, but the question is will we or
 will we get another failed 3 day rally. Too many of those in a row should indicate that the bears are taking
 controls for a while.

Tuesday June 7th, 2011

Today was a SS day. Markets worked hard to get to the BDL with ES barely making it and TF missing by not much. As soon as ES reached the BDL markets reversed hard.

Tomorrow will be a Buy day. There is room to go lower on this decline and based on the closing actions it should continue lower before a rally can start.

Monday June 13th, 2011

Today was a Buy Day. As expected, momentum did that the markets lower for them to reach TTT levels. Tomorrow will be a Sell Day. We did close near the lows of the days however it was after an initial rally. Will this momentum take the markets lower or just do a test of the Buy Day Low before the real rally starts, that is the question.

Wednesday June 15th, 2011

Today was a SS day. Markets gapped down and tried to rally just to reach the TTT MA levels. Then the decline continued.

Tomorrow will be a Buy day. The average decline is already in place, therefore if the bulls are interested they can start the rally at any time, however will momentum push the markets lower before the rally starts, that is the question.

Thursday June 16th, 2011

Today was a Buy day. Markets had decline enough this morning however since only TF had not made a new low of late, I guess they decide to go lower this afternoon at which point the rally started.

Tomorrow will be a Sell day. The rally should continue as we have plenty of space to go up based on averages.

Friday June 17th, 2011

Today was a Sell day. Markets did rally to TTT levels overnight and then traded in a confused way the rest of the day.

Monday will be a SS day. If the bulls are in charge they have room to go up to reach the 3 day rally numbers.

Tuesday June 21st, 2011

Today was a Buy Day. We did get a decline on the 24hr session and in most of the Cash Indexes. ES and TF failed on the day session futures.

Tomorrow will be a Sell day. Depending which instrument we look at, most of the rally is in place. The vote on Greece in a few minutes could affect the upside of the overnight play and then FOMC play with the day session. Should make for an interesting day.

Wednesday June 22nd, 2011

Today was a Sell day. Markets reached TTT levels and pulled back.

Tomorrow will be a SS day. Markets have room to go up to reach the average 3 day rally numbers, however we are above the BDL and this end of day decline may continue first due to momentum.

Thursday June 23rd, 2011

Today was a SS day. With the huge gap and the BDL being so far, I never expected that to get filled. But yes we did get back to BDL

Tomorrow will be a Buy day. Momentum may take the markets higher before the decline can start

Monday June 27th, 2011

Today was a Sell day. Markets tested the BDL and failed, the rally then started and most reached TTT MA Levels

Tomorrow will be a SS day. Markets are close to or at TTT levels, this may make for a confusing day if today's highs are not taken out.
