Friday June 1<sup>st</sup> 2012

Today was a Sell day. Markets opened this morning with a huge gap down and TVGR took effect and kept the market going lower all day.

Monday will be a SS day. We are way below the BDL and have high odds of getting back to these levels. We will have to be careful with this big mountain to climb

Monday June 4<sup>th</sup> 2012

Today was a SS day. Markets failed to make it back to the BDL. Not only the hill was tall to climb but the overnight drop didn't help.

Tomorrow will be a Buy day. There is plenty room to decline. However sometimes when we get a failed 3 day rally we try compensate on the Buy day.

Tuesday June 5<sup>th</sup> 2012

Today was a Buy day. As mentioned last night, I felt the decline would be small. However the rally was not very convincing either.

Tomorrow will be a Sell day. a good part of the rally is in place which may make for a confused day.

Wednesday June 6<sup>th</sup> 2012

Today was a Sell day. There was no confusion and the markets rallied more than expected, therefore negating the failed 3 day rally of last Monday.

Tomorrow will be a SS day. Again we are way above the average 3 day rally. The decline could start at any time, however momentum may take the markets higher before the decline starts.

Thursday June 7<sup>th</sup> 2012

Today was a SS day. Pretty much text book day. Made higher highs and then the decline started.

Tomorrow will be a Buy day. A good part of the decline is in place and should continue at least for part of the day.

Friday June 15<sup>th</sup> 2012

Today was a SS day. Markets continued their rally and even reached the TTT Penetration levels

Monday will be a Buy day. We should be anticipating a decline, however momentum may take the markets higher before the decline starts. Will the European votes and news mess up the decline is a good question

Wednesday June 20<sup>th</sup> 2012

Today was a SS day. It was a bit confused probably due to the FOMC meeting. Market rallied to TTT levels then pulled back just to rally again.

Tomorrow will be a Buy day. We should expect some decline tomorrow.

Friday June 22<sup>nd</sup> 2012

Today was a Sell day. Markets rallied however not with big conviction

Monday will be a SS day. Based on today's rally and the fact that we are currently above the BDL, if we open still above the BDL, markets could go either way.

Friday July 6<sup>th</sup> 2012

Today was a SS day. The gap kept the markets under TVGR for the day session and prevented them to get back to the BDL. This often happens during holiday weeks.

Monday will be a Buy day. Based on averages there is still room to decline

Tuesday July 10<sup>th</sup> 2012

Today was a Sell day. Markets made higher highs but were unable to continue the rally.

Tomorrow will be a SS day. We have high odds to make it back to at least the BDL, however if we open with a large gap down in the morning, the hill may be too high to climb and TVGR could take effect.

Wednesday July 11<sup>th</sup> 2012

Today was a SS day. We did get TVGR and we failed to get a positive 3 day rally

Tomorrow will be a Buy day. Some times after a failed 3 day rally we get a weak decline. However they should go lower based on averages.

Tuesday July 24<sup>th</sup> 2012

Today was a SS day. Yesterday was the 1<sup>st</sup> time in 4 ½ years the ES didn't produce a rally by getting above the BDL even on the 24 Hour session. With that decline it was next to impossible to get a positive 3 day rally today.

Tomorrow will be a Buy day. There is still room to decline to reach TTT levels. Momentum should help achieve these levels and possibly more.

Today was a Buy day. Markets declined to reach their TTT levels and then the rally started.

Tomorrow will be a Sell day. About half the rally is done, which may make for a confused day.

Tuesday July 31<sup>st</sup> 2012

Today was a Sell day. Well so much for the rally we were expecting. We even closed below the BDL

Tomorrow will be a SS day. We have great odds of at least getting back to the BDL which is not too far away yet.

Wednesday August 1<sup>st</sup> 2012

Today was a SS day. The rally was barely enough to get back above the BDL after which time the decline started.

Tomorrow will be a Buy day. There is still room for the decline to continue if they want to.

Thursday August 2<sup>nd</sup> 2012

Today was a Buy day. Markets declined as they were supposed to and even reached the violations levels

Tomorrow will be a Sell day. In principle the rally that started today should continue, however it could be in a confused fashion.

Today was a Buy day. Markets were slow and under TVGR, therefore they barely made a decline

Tomorrow will be a Sell day. Half the rally is in place which could make for a confusing day.

Thursday August 16<sup>th</sup> 2012

Today was a Sell day. Markets continued their rally and some (TF, NQ) reached TTT levels while the others reached penetration levels.

Tomorrow will be a SS day. The 1<sup>st</sup> 2 are at TTT levels while YM and ES are not there yet. Therefore depending who will lead the rally could continue before the decline starts.

Wednesday August 29<sup>th</sup> 2012

Today was a Sell day. The rally was not very powerful keeping in line with the weak decline of yesterday

Tomorrow will be a SS day. Based on the actions of the last 2 days I would expect a confused SS day.

Thursday August 30<sup>th</sup> 2012

Today was a SS day. Markets managed to produce a 3 day rally on the globex session. As far as the Day session is concerned, they opened with a gap down and some gapped below the BDL. ES and YM tried to rally against TVGR all day to try to get to the BDL and got close but failed by just a few ticks.

Tomorrow will be a Buy day. Based on averages the decline should continue.

Thursday September 13<sup>th</sup> 2012

Today was a Buy day. Hard to say what kind of declined we got due to rollover.

Tomorrow will be a Sell day. The rally levels have been reached and we even closed at these levels. We could be in for confusion.

Wednesday September 19<sup>th</sup> 2012

Today was a Sell day. It was a confusing day as the markets couldn't make a rally

Tomorrow will be a SS day. There is plenty of room to rally. if we open in the morning below the BDL we will have good odds to at least get back to the BDL

Thursday September 20<sup>th</sup> 2012

Today was a SS day. As mentioned last night we did open below the BDL. The markets had to rally to at least the BDL levels and they did go higher

Tomorrow will be a Buy day. We should be expecting a decline on Buy days. So far we close on the highs of the day, therefore momentum may take markets higher before the decline starts.

Friday September 21<sup>st</sup> 2012

Today was a Buy day. As mentioned yesterday momentum did take markets higher. We opened with a gap up above the SS day high which gave us a good opportunity to short as we knew we had large odds of at least getting under the SS day high levels.

Monday will be a Sell day. The decline was small however we did close on the lows of the day. Therefore momentum could take markets lower before the rally starts

Monday September 24<sup>th</sup> 2012

Today was a Sell day. Although it was a confusing day, it was clear at the open that long was the direction to go. Markets gapped lower and even below the BDL. We knew we had 95% odds of at least getting back to the BDL which all markets except the Nasdaq did.

Tomorrow will be a SS day. Again if we open below the BDL, we will have good odds to get back above these levels

Tuesday September 25<sup>th</sup> 2012

Today was a Buy day. Nice SS day as all markets rallied to test yesterday's highs and dragged NQ back above the BDL. Once done the markets reversed as per a textbook SS day

Tomorrow will be a Buy day. The decline is in place, however having closed on the lows of the day, momentum may take the markets lower before the rally starts

Wednesday September 26<sup>th</sup> 2012

Today was a Buy Day. Momentum was stronger than expected and decline continue all the way to violation levels.

Tomorrow will be a Sell day. A small rally started but without conviction. Having closed near the lows again, we may have to retest these lows before the real rally starts.

Thursday October 4<sup>th</sup> 2012

Today was a Buy day. Only ES day session failed to make a decline and that was by only 1 tick. It did provide a trade at the open to short until the SS day high was reached.

Tomorrow will be a Sell day. The rally should continue but it could be in a confused manner.

Wednesday October 10<sup>th</sup> 2012

Today was a Sell day. YM was weak and kept the others from rallying. YM also failed to rally in the day session but only by 5 points

Tomorrow will be a SS day. Markets closed below the BDL and we have very high odds of at least getting back to that level before the close tomorrow.

Thursday October 11<sup>th</sup> 2012

Today was a SS day. As expected we had closed near the lows yesterday and momentum took the markets lower. However We also knew that we had high odds of getting back to the BDL and all markets did with the exception of YM. It tried but failed.

Tomorrow will be a Buy day. Most of the decline is in place, therefore the rally could start at any time.

Wednesday October 17<sup>th</sup> 2012

Today was a Buy day. Momentum did bring markets higher during the overnight session and they managed to get back lower the Previous day High to produce a small Decline during the day session.

Tomorrow will be a Sell day. Markets should continue their rally that was started today. It may be in a confused manner .

Tuesday October 23<sup>th</sup> 2012

Today was a Sell Day. Markets did produce a Rally on the 24 Hour Session but some missed in the Day Session.

Tomorrow will be a Sell Short Day. We have good odds of getting back to at least the BDL.

Wednesday October 31<sup>st</sup> 2012

Today was a Sell day. Markets made it to the projected levels and reversed

Tomorrow will be a SS day. The 24 Hours numbers seems to be better than the Day session numbers. The BDL day session was an estimate, therefore could be off.
