Friday July 1st 2016

Today was a SS day. Markets reached their Penetration levels and then some kind of decline started.

Monday will be a Buy day. Considering that we will be getting only a half day due to the holiday, the decline should be shallow.

Wednesday July 6th 2016

Today was a SS day. As mentioned yesterday, the cycle is a bit off due to the holiday, having said that they worked real hard to get Back to the BDL and most made it.

Tomorrow will be a Buy day. Momentum may take markets higher before the decline starts.

Thursday July 7th 2016

Today was a Buy day. As expected momentum took Markets higher and reached their TTT Penetration levels, then the decline started and nearly reached their Average range Decline for a Buy day, before the rally started.

Tomorrow will be a Sell day. Half the rally is in place which could make for a confused day.

Tuesday July 12th 2016

Today was a Buy day. Markets managed to produce some small decline in the Globex session, however they missed their objective by no much in the day session.

Tomorrow will be a Sell day. There is some room for the rally to continue, however we may be looking at a confused day.

Monday July 18th 2016

Today was a Sell day. NQ made it to TTT levels while the others played between the BDL and its Highs.

Tomorrow will be a SS day. There is room for the rally to continue, however the decline could start at any time.

Tuesday July 19th 2016

Today was a SS day. Some markets decline and bounced on the previous day lows and somewhat rallied again, but no real conviction behind it.

Tomorrow will be a Buy day. We should be looking for some decline tomorrow.

Thursday July 21st 2016

Today was a Sell day. Markets retested their Previous day Highs and failed to go higher. Therefore markets had to decline. Having said that ES BDL held as support.

Tomorrow will be a SS day. There is plenty of room for the markets to rally, but it is a SS day and therefore the decline could start at any time they are above the BDL.

Tuesday July 26th 2016

Today was a Sell day. Markets were confused retesting their BDL and then rallying again.

Tomorrow will be a SS day. There is room for the rally to continue, however as long as markets are above the BDL during the Day session, the decline could start at anytime.

Monday August 1st 2016

Today was a SS day. Markets decline and some retested their BDL and rallied again.

Tomorrow will be a Buy Day. So far half the decline is in place and therefore we have room to go lower. Having said that markets could start rallying at any time.

Friday August 5th 2016

Today was a Buy day. NFP did create some mess in the Day session cycle. We did get some small decline in the 24 hour session then the rally started.

Monday will be a Sell day. There is room for the rally to continue but it may get confused.

Tuesday August 9th 2016

Today was a SS day. ES tested its Previous day High and failed. Others reached their TTT levels and reversed. We are getting very narrow range day which is indicative that new highs are hard to make.

Tomorrow will be a Buy day. The small decline that started today should continue tomorrow.

Wednesday August 10th 2016

Today was a Buy Day. Markets finally declined and breached the Previous day Lows, then the a rally started.

Tomorrow will be a Sell day. Since the rally was not that convincing, we may retest the lows before a real rally starts.

Tuesday August 16th 2016

Today was a Sell day. Markets did manage to get a small rally except for ES day session which missed by 2 points.

Tomorrow will be a SS day. Markets are below the BDL and we have good odds of getting back above before the decline starts.

Friday August 19th 2016

Today was a Sell day. Markets retested their BDL and then rallied again.

Monday will be a SS day. There is plenty of room for the rally to continue, however as long as markets are above their BDL on Monday. The decline could start at any time.

Thursday August 25th 2016

Today was a SS day. We had a confused day with markets trying to make it back to the BDL. Only TF had a positive rally for the day session.

Tomorrow will be a Buy day. Markets could try to negate the 3 day Failure and make it above the previous BDL and produce a small decline only. Wait and see.

Friday August 26th 2016

Today was a Buy day. Markets rallied at first to reach their previous BDL for the day session, then the decline started and reached TTT levels. This negated the previous day failure of the 3 day cycle. As per my TTT cycles the failure is counted as a failure for the averages but it has been negated for the principle.

Monday will be a Sell day. We are half way through the rally, which could make for a confused day.

Thursday September 1st 2016

Today was a Sell day. Markets retested their BDL and failed to go much lower. Then some kind of rally started.

Tomorrow will be a SS day. There is plenty of room for the rally to continue. Having said that the decline could start at any time.

Monday September 5th 2016

Today was a Buy day and a Holiday. Markets did decline, however it was shallow.

Tomorrow will be a Sell day. Will this be a Holiday messed up cycle, or what will we see. There is room for the rally to continue.

Tuesday September 6th 2016

Today was a Sell day. Markets were a bit confused and retested their BDL and then rallied again.

Tomorrow will be a SS day. There is plenty of room for the rally to continue, however it is a SS day and therefore the decline could start at any time.

Friday September 9th 2016

Today was a Sell day. Markets failed to rally and declined more. This happens often after a holiday.

Monday will be a SS day. Based on averages markets have good odds of making it back to the BDL, however there is a long way to go.

Monday September 12th 2016

Today was a SS day. Markets tried very hard to get back to the BDL but the hill was too high to climb.

Tomorrow will be a Buy day. Market may produce a small decline in order to negate the failed 3 day rally and rally earlier than usual.

Wednesday September 28th 2016

Today was a SS day. Markets reached TTT MA levels in the overnight and the day session, and pulled back, only to rally again and surpass all TTT levels.

Tomorrow will be a Buy day. Having closed on near the highs of the day, momentum may take markets higher before the decline starts.

Thursday September 29th 2016

Today was a Buy day. Momentum did take markets a little higher before the decline started, only to reach their TTT levels.

Tomorrow will be a Sell day. Part of the rally is in place and there is room for it to continue.

Friday September 30th 2016

Today was a Sell day. Markets retested their BDL and then rallied again to reach their Previous day's high, which was above their average Sell day rally. A pullback then started.

Monday will be a SS day. Will we retest these highs before the real decline starts is the question.

Monday October 10th 2016

Today was a Sell day. All but ES reached their maximum Penetration levels while ES reached its TTT levels before some kind of pullback started.

Tomorrow will be a SSD. Some of the markets are above their 3 day objective and therefore the decline could start at anytime

Tuesday October 11th 2016

Today was a SS day. Markets were at their TTT levels and the decline started.

Tomorrow will be a Buy day. In principle the decline is in and we should be looking for the rally to start at any time.

Wednesday October 12th 2016

Today was a Buy day. Decline was in place. They tried to retest yesterday's low but failed, however there wasn't much of a rally.

Tomorrow will be a Sell day. We could be looking for more confusion.

Thursday October 13th 2016

Today was a Sell day. All Markets produced a rally during the 24Hour session. This morning most opened below the BDL and all except TF made it back above. TF missed by 7 ticks.

Tomorrow will be a SS day. Most markets are at or close to the BDL. We have very high odds of getting back above before the end of the day tomorrow.

Tuesday October 25th 2016

Today was a Buy day. Markets tested their PH (Previous day High) and failed to go much higher. The decline then started.

Tomorrow will be a Sell day. Having closed on the lows of the day, momentum may take markets lower before the rally starts.

Wednesday October 26th 2016

Today was a Sell day. And what a confused Sell day it was. As expected momentum took the markets lower, however the rally that came was really confused with some barely making it to the BDL.

Tomorrow will be a SS day. All except ES closed below the BDL. Based on averages we have good odds of getting at least back above these levels.

Thursday October 27th 2016

Today was a SS day. Some of the markets made it above their BDL and some failed by not much. Then the decline started.

Tomorrow will be a Buy day. The decline is in place and therefore the rally could start at any time.

Monday October 31st 2016

Today was a Sell day. As expected it was a confused with the markets going nowhere.

Tomorrow will be a SS day. There is plenty of room for the rally to continue, however the decline could start at anytime.

Tuesday November 1st 2016

Today was a SS day. Markets retested their Previous day High's and failed. The decline then started.

Tomorrow will be a Buy day. The decline is in place, therefore if the bulls want to take back the charge, they do so at any time. Having said that if we have switched to a bear market or correction phase, the decline could continue.

Monday November 7th 2016

Today was a Buy day. All we needed is a crazy election and the FBI to mess up this Buy day decline.

Tomorrow will be a Sell day. We already have the rally in place which could make for a confused day.

Wednesday November 9th 2016

Today was a SS day. What a crazy day. When Clinton was winning markets was down but when Trump started winning markets went right back up and even closed higher for the day.

Tomorrow will be a Buy day. We should be looking for a decline but again we maybe looking at another confused day.

Today was a Buy day. Markets did manage to produce a decline but some were very small for the day session.

Tomorrow will be a Sell day. The average rally is in place which could make for a confused day.

Monday November 14th 2016

Today was a SS day. Markets were really confused with all 4 going different ways. But all were on a positive 3 Day Rally.

Tomorrow will be a Buy day. NQ is very weak and is not driving the others as it should. The others have room to go lower but NQ has done its decline. We will see what happens.

Tuesday November 15th 2016

Today was a Buy day. Market tested their Previous day Low and failed to go lower. The rally then started.

Tomorrow will be a Sell day. Most of the rally is in place, which could make for a confused day.

Wednesday November 16th 2016

Today was a Sell day. As expected markets were confused. Some reaching Penetration levels and then dropping back again.

Tomorrow will be a SS day. Half of the rally is in place leaving room to continue up, however the decline could start at any time.

Monday November 28th 2016

Today was a Buy day. Markets did decline but some declined in a confused way.

Tomorrow will be a Sell day. Confusion should continue, with a bias to a rally at some point.

Tuesday November 29th 2016

Today was a Sell day. I would call it a confused day as we tested the Previous day Lows and Highs, and no breakthrough.

Tomorrow will be a SS day. Based on averages, the rally should continue. Having said that, the decline could start at any time, as long as we open above the BDL in the morning.

Wednesday November 30th 2016

Today was a SS day. Markets did perform in a confused fashion as they were not in sync. Some tested their Previous day High and then all of them declined following NQ.

Tomorrow will be a Buy day. Based on averages there is room for the decline to continue. NQ is already past its levels, so the rally could also start at anytime

Thursday December 1st 2016

Today was a Buy day. Markets declined and NQ fell off the cliff and dragged the other down to their violation levels.

Tomorrow will be a Sell day. A small rally started, if this was the start of the real rally then it has room to continue. If not we may retest the lows and then start rallying.

Tuesday December 6th 2016

Today was a Buy day. Markets were dead and barely had enough energy to produce a semi decent decline.

Tomorrow will be a Sell day. Based on today's action we should be looking for a confused day.

Wednesday December 7th 2016

Today was a Sell day. Markets were definitively not confused and rallied like crazy, surpassing all levels.

Tomorrow will be a SS day. Markets are way above their Average 3 day Rally levels. Therefore the decline could start at any time. However momentum may take us higher before that decline starts.

Thursday December 8th 2016

Today was a SS day. Markets were a bit confused, probably due to the rollover.

Tomorrow will be a Buy day. Having closed near the highs of the day, momentum may take markets higher before the decline starts.

Monday December 12th 2016

Today was a Sell day. Markets were confused with some reaching Penetration levels and then being dragged by others down.

Tomorrow will be a SS day. We have room for the 3 day Rally to continue and TF having to get back above its BDL.

Tuesday December 13th 2016

Today was a SS day. Markets reached their Penetration Levels before a decline started. Only exception was TF that got back above its BDL and then declined.

Tomorrow will be a Buy day. There is plenty of room for the Decline to continue. FOMC report may make this a confused day.

Friday December 16th 2016

Today was a SS day. Markets were slow and only TF reached its TTT levels. At the point they all started their decline.

Monday will be a Buy day. There is room for the decline to continue if they want to. Though call in this bull market.

Thursday December 22nd 2016

Today was a Buy day. Markets declined and reached their Violation levels, at which point the rally started.

Tomorrow will be a Sell day. Based on averages the rally has plenty of room to go. However being the day before the holiday we could be in for a confused day.

Tomorrow will be a Buy day. There is plenty of room for the decline to continue if they want to.

Wednesday December 28th 2016

Today was a Buy day. Markets tested their Previous day High and failed to get higher. The real decline then started and reached their TTT targets.

Tomorrow will be a Sell day. Having closed near the lows of the day, momentum may take markets lower before the rally starts.

Today was a SS day. Markets tested yesterday's highs and failed. The decline then started and reached violation levels.

Tuesday will be a Buy day. Most of the decline is in place. Therefore the rally could start at any time.
